About Miessence®

Certified Organic

Did you know that Miessence® is the world's first and only skin care range, certified organic to food standards by an independent third-party certifier?

The Miessence® product range bears the seal of approval by Australia's leading certifying body, the Australian Certified Organic (ACO), a division of the Biological Farmers of Australia Co-op Ltd. The ACO sets and maintains stringent quality standards that are internationally recognised as either compliant with or exceeding all international requirements.

Benefits of certified organic products and processes:

- Independent third party guarantee of quality and purity of ingredients.
- Safe, clean and potent plant extracts of high vitality.
- Sustainable agriculture that respects, supports and nurtures the complete ecology and energy of our planet.
- Authenticity and integrity of 'organic' and 'natural' claims.
- Prevention of damage to the environment and humans by the poisonous chemicals used in conventional agriculture.

While 'natural' and 'organic' claims abound, "we have chosen to guarantee the authenticity of our claim by creating a Certified Organic range of products." Many may claim to use organic ingredients, but none have achieved independent certification, to food standards.

100% Beneficial Ingredients – Potent and Active Products

We are proud to say that EVERY ingredient in every certified organic Miessence® product is beneficial to you and your body. Only certified organic cold-pressed oils, herb and flower extracts and essential oils are used. Our potent products contain ACTIVE levels of botanical ingredients. We use no semi-natural ingredients and, of course, we only test on humans!

Cold Formulation – Bio-Available Nutrients for Your Skin

Only cold formulation offers superior quality active ingredients, unaltered by heat and synthetic emulsifiers. Only cold formulation provides your skin significant quantities of bio-available nutrients that literally feed your skin. Our precious certified organic plant oils, herbal extracts, vitamins and essential oils are not subjected to any heat during formulation.

Made Fresh – Shipped Fresh

All our products are shipped as soon as possible after manufacture, fresh from the factory. This ensures their freshness and potency. We want you to gain the maximum benefit from our products - the 'best before' date is 18 months – even though they will last longer than this, we recommend you use them within 18 months to get the full benefit of the freshly pressed organic oils and extracts. Make use of them as soon as you receive them!

Skin Care Testimonials

My skin looks and feels better already (pores have tightened and it feels cleaner). My skin has a lovely glow after each use. I also enjoy the simple routine. The presentation is excellent too –green glass with a pump is good to keep light & fingers out.

Marita V, Bulli, NSW

My skin has improved, especially I have noticed the pores are reducing and skin tone is much more even and looks healthier!

Michelle C, Oakey, QLD

After only six weeks of using Miessence products I am seeing a marked reduction in the sebaceous cysts and puffiness under my eyes, both problems I have had for many years and was told I would need plastic surgery to correct.

Michelle M, Box Hill, VIC

I was using another brand of skin care and my skin had improved but was still dehydrated and red (a real embarrassment). I am very pleased to say I had results I am truly happy with 3 days into it! Thank you for helping my self image and skin.

Simone T, Cleveland, QLD

Your company is heading in the right direction. More and more people are realizing we must look to the natural world to solve our problems as man made solutions often create more problems than they solve. Wishing you continued success in the future direction of your company.

Sue E, Warrnambool, VIC

It's sensational on my skin and it has never felt so good in all these years, and looks so healthy and glowing after only two days! I am so excited to be using them and also excited about telling all my friends and family about your wonderful products.

Cleanse

Why?

Cleansing removes the top layer of dead cells, oil, perspiration and pollution. If your skin is not cleansed properly it becomes dull and flaky and the oil glands block up with dirt and cellular waste, causing breakouts and congestion.

How?

Gently press the face with a warm, soft cloth to soften and prepare the skin for cleansing. Massage one or two pumps of cleanser into your face and neck. Remove with a damp cloth and plenty of water. If wearing make-up, a second cleanse is necessary.

When?

Twice daily (am/pm)

Which?

Balancing Cleanser (normal/combination skin)

An organic cleanser with stimulating organic orange peel oil, calendula and marshmallow that effectively removes perspiration, pollution and excess oils. Leaves the skin feeling soft and fresh.

Rejuvenating Cleanser (dry/mature skin)

A rich, emollient cleanser formulated with rejuvenating organic geranium, hops and chamomile for dry or mature skin. Softens and freshens, gently removing perspiration and pollution.

Excellent product – as good if not better than any of the expensive commercial brands.

Sigrid D, Upper Brookfield, QLD

Purifying Cleanser (oily/problem skin)

A purifying cleanser with fresh organic lemon peel oil, witch hazel and burdock that leaves the skin feeling soft, clean and fresh, without feeling stripped and dry.

Soothing Cleanser (sensitive skin)

A very gentle, yet effective cleanser with relaxing organic bergamot and chamomile to immediately calm and soothe sensitive, taut skin.

Exfoliate

Why?

A build up of dead skin cells causes a rough and dull appearance. Exfoliating the top layers of dehydrated cells promotes a youthful, glowing skin.

How?

Squeeze a small amount of exfoliant onto damp fingertips and massage onto damp skin using a small circular motion, paying particular attention to T-zone if necessary.

When?

Once a week for sensitive and dry / mature skin. A few times a week for normal / combination / oily / clogged skin. Do not exfoliate blemished skin, to avoid spreading infection.

Which?**Garnet Exfoliant** (normal skin)

Polished alluvial garnet works effectively to clear congestion resulting from a build-up of dead, dry surface skin cells. The best scrub ever, with a fresh citrus blend of organic lemon, bergamot and orange.

The garnet exfoliant is great! It is the first facial scrub I have used that doesn't leave my face feeling taut and dry.

Kim H, Brighton, VIC

Gentle Exfoliant (sensitive skin)

Natural jojoba beads safely and gently remove dead, dry surface skin cells, promoting a renewed and glowing skin. Contains soothing organic lavender from the beautiful Dandenong Ranges in Victoria.

Mask

Why?

While regular cleansing removes surface impurities, clay-based masks will actually draw toxins from within the skin so they can be washed away. Clay firms, tones and refines the skin, promoting a smooth, supple, and clear complexion. Clay remineralises and rebalances the skin. Masks must be followed by a Skin Conditioner and Moisturiser to prevent dehydration.

How?

Make a smooth paste by stirring 1 tsp of purified water (aqua) with 1 heaped tsp of mask powder in a glass bowl (or jar lid). Smooth a generous amount onto face and neck. Lie down with your feet up and relax for 10-15 minutes, until mask is *almost* dry. Rinse off with plenty of tepid water and a soft cloth.

When?

Once a week for sensitive and dry / mature skin.

Twice a week for normal / combination / oily skin.

Daily for blemished skin (for a week) then every second day (for a week), then twice weekly until congestion and blemishes have cleared.

Which?**Balancing Mineral Mask** (normal/combination skin)

Natural pink clay, organic marshmallow and calendula help absorb and lift surface impurities and renew the skin's surface.

Rejuvenating Mineral Mask (dry/mature skin)

Natural white clay, organic horsetail and nettle help renew the skin's surface, promoting a smooth, clear texture.

Purifying Mineral Mask (oily/problem skin)

Specifically formulated for problem skin with natural green clay, organic echinacea and witch hazel to tone and soothe the skin.

Condition

Why?

Conditioning is a vital step in the Miessence skincare regime! Conditioning has a twofold purpose: firstly, to feed the skin with nutrients in the water-soluble botanicals, organic herbs, vitamins and essential oils, and secondly, to provide a hydration base for the moisturiser to lock in.

How?

On clean moist skin, massage 2 to 3 pumps of conditioner gently onto face, throat and décolleté.

When?

Twice daily (am/pm) on cleansed skin.

Which?**Balancing Skin Conditioner** (normal/combination skin)

A hydrating infusion with organic olive leaf, calendula, marshmallow and vitamins to refresh and tone the skin. Maintains a refined and supple complexion.

Rejuvenating Skin Conditioner (dry/mature skin)

A refreshing infusion with organic gotu kola, horsetail and vitamins known to energise and tone the skin. Revitalises the complexion for radiant skin.

Purifying Skin Conditioner (oily/problem skin)

A purifying infusion with organic echinacea, witch hazel, burdock, plantain and vitamins known to help tighten and tone the skin. Clarifies and purifies the complexion.

Soothing Skin Conditioner (sensitive skin)

A gentle infusion with organic horsechestnut and st john's wort and essential oils like carrot and chamomile that are known to help calm and soothe skin chapped by the elements. Helps skin feel soothed and softened.

I actually found your products in the Organics/Health Food shop whilst on a holiday – I bought the Skin Conditioner, almost completely on a whim – I have been using another brand for about 10-15 years and have always loved their products, however as your products are certified organic and they were highly recommended by the shop I thought I'd give them a try. After a week of using the conditioner I have noticed a significant improvement in skin tone and texture and thought WOW! Suse F. Alexandria, NSW.

Gels

Why?

Gels are intense concentrations of botanical extracts for special skin needs.

How?

Apply 1 to 2 pumps of the gel to the fingertip and pat into affected areas.

When?

Twice daily (am/pm) after conditioning and before moisturising.

Which?

Soothing Couperose Gel (broken capillaries/redness)

A strengthening treatment for sensitive skin with ultra-soothing organic plant extracts. Contains fortifying and toning horsechestnut, soothing st john's wort, calming chamomile and astringent and toning witch hazel to help reduce a red, blotchy appearance.

Purifying Blemish Gel (blemishes/pimples/cuts)

A potent and powerful blend of healing and calming organic herbs and flowers, including purifying thyme, healing plantain, clarifying echinacea and soothing marshmallow. Contains the potent properties of organic lavender, lemon myrtle from country Queensland and tea tree from the forests in northern New South Wales.

"Blemish Gel" should be called "MIRACLE GEL". Whenever a spot appears, it gets zapped with the gel and within 12 hours it's either gone or barely visible! This amazing product should be made available to all teenagers, to help them get through the difficult years without major outbreaks. Thanks for introducing me to my little "MIRACLE"!

Lisa C, Burleigh Heads, QLD

I have found this product to give INSTANT relief from the stinging and itching of mosquito bites.

Chris W, Carindale, QLD

In doing some research and speaking to Narelle, I found out that the wonder product I had been using was filling my hair with "Silicone!! If I was to ever have a healthy head of hair back, I would have to bite the bullet and go through the terrible withdrawals that accompany the use of such shelf products.

I went on Miessence Shampoo and Conditioner. For a month, my hair felt like "steel wool". I was devastated, however I knew I had to keep the faith. Well, I am three months down the line, and my "Angel Hair" is BACK!

Cosmetics

After creating Miessence®, the world's first certified organic skin and body care range, our progression into organic cosmetics occurred naturally! As our customers learnt more about the undesirable ingredients in skin and body care products, they insisted that we help them replace toxic colour cosmetics with a pure alternative.

It seems that it was not only our customers who thought this was a good idea...early in 2002, we were awarded an Australian Federal Government grant to develop the world's first organic cosmetic range.

We are proud to offer you truly natural cosmetics with certified organic ingredients that nurture your skin, whilst providing naturally harmonious colours and lasting performance.

Thank you for making the best cosmetics in the world!! They are simply stunning - an absolute joy to use.
