'world's first organic cosmetic range'

Product of Australia

miessence® organics Cosmetics

After creating Miessence®, the world's first certified organic skin and body care range, our progression into cosmetics occurred naturally! As our customers learnt more about the undesirable ingredients in skin and body care products, they insisted that we help them replace toxic colour cosmetics with a pure alternative.

It seems that it was not only our customers who thought this was a good idea... early in 2002, we were awarded an Australian Federal Government Grant to develop an organic cosmetic range.

We are proud to offer your truly natural, mineral cosmetics with certified organic ingredients that nurture your skin, whilst providing naturally harmonious colours and lasting performance.
