

WHY LEARN TRT?

- ✓ Upgrade your adjustments from a mechanistic segmental approach to a neurological tonal model
- ✓ Convert your patients from a symptomatic understanding of your care to a wellness consciousness
- ✓ Increase the magic from each and every adjustment regardless of how you adjust
- ✓ Evolve your technical confidence and certainty to a new level of mastery
- ✓ Expand your capacity to see more clients in less time
- ✓ Maximise your patient retention and compliance
- ✓ Break free from doing more and more for less result – to doing less for more results
- ✓ See larger changes correcting emotional, psychological, behavioural, and chemical components of Subluxation
- ✓ Reduce mental and physical fatigue to your own body by using an effective low-force technique
- ✓ Develop committed practice members without the need for any marketing techniques or hard-sell tactics

WHAT IS TRT?

- Vitalistic model of subluxation analysis and correction evolved from traditional chiropractic principles to 21st century quantum science
- Unique combination of the most evidence-based chiropractic diagnosis following critical review of the “best of the best” neurological subluxation indicators
- Neurological and tonal system of differential diagnosis to determine the primary subluxation, at any given moment in time
- Live analysis to determine where and how the non-linear body wants and needs to be adjusted
- Systems upgrade to any chiropractic technique analysis
- First technique to be developed through randomised controlled scientific research design
- Hardware upgrade if you also embrace the latest in adjusting technology...

THE ULTIMATE ADJUSTING INSTRUMENT...

THE INTEGRATOR

- ✂ Not just another impulse hammer, but a purpose-built, three dimensional adjusting instrument which delivers the correction your hands are not able to do
- ✂ The only adjusting instrument designed to fulfil all the specifications of the purest chiropractic adjustment – the Toggle Recoil
- ✂ Reproducible due to pre-loading mechanism – only fires when correct pressure applied
- ✂ Impulse frequency, recoil, torque and high-speed correction – all scientifically measured to maximise neurological and state of wellbeing changes
- ✂ Even “hands-only” DCs can’t resist this tool when they see the results

PROGRAM PRESENTER

Dr Nick Hodgson (below left) has been responsible for introducing TRT to the Australian Chiropractic profession by coordinating, facilitating and teaching numerous training programs, and has been personally mentored by Dr Jay Holder (below right), the developer of TRT. Nick is the only Australasian provider of TRT Training. Nick is a 1990 graduate of the Phillip Institute of Technology (now RMIT) where he received the academic award for Chiropractic Science. Nick has been recognised by both the CAA(Vic) and RMIT Alumni for his contributions and service to the chiropractic profession, culminating as 2005 Victorian Chiropractor Of The Year. He has been in full-time practice for thirty three years, and is one of Australia’s most-experienced TRT practitioners. Nick is a Fellow of the Holder Research Institute (F.H.R.I.), and has completed five of the ten modules of the Certified Addictionologist (CAD) program.

TRT REGISTRATION

FEES:

ABOUT TRT TRAINING

Two Part Program: Part A - Study all the theory online in the comfort of your own home; Part B – 1 day intensive hands on training with personalised coaching

We provide you with a comprehensive, intensive, interactive and highly practical training process

You'll benefit from lots of hands-on tuition and leave with the proficiency to implement the technique on Monday morning

Your registration includes your training manual which will help you to revise, review and complete your learning

You'll experience first-hand the power of TRT adjustments – many DCs encounter amazing healing changes during the program

And... We don't leave you hungry as your fee includes light and nourishing meals

And..... Following the program we don't leave you on your own as you have access to FREE email support, and ongoing advanced hands-on training opportunities

No other program offers you this level of comprehensive training and support

ADJUST NO SUBLUXATION BEFORE IT'S TIME

Part A – Study online

Part B – Hands On Workshop
Sunday November 20, 2022

OUR MISSION: "CUTTING-EDGE CHIROPRACTORS – TOUCHING MORE LIVES"

"I have been so impressed with TRT... based upon well-established chiropractic analysis principles, and it works! ...has added significant substance to our chiropractic technique procedures, and to our chiropractic profession."

Alfred States, Father of Diversified Technique

"TRT is based upon what DD and BJ intended – that we have innate and genetic potential and that the subluxation interferes with this expression. TRT is a tonal technique based on constant never ending improvement."

Matthew McCoy, Professor Clinical Sciences Life University, Editor of a number of chiropractic scientific journals

"TRT is a dynamic system of analysis and adjustment. Synthesizing and encompassing the "best of the best" within many of the great chiropractic techniques of our profession, TRT becomes a welcomed, philosophical and scientifically based addition of subluxation-based chiropractic technique for the next 100 years..."

Robin C Hyman, Author of over eight college level textbooks, and numerous manuals and journal articles, named chiropractic educator of the year in 1997 for all chiropractic colleges worldwide

"TRT is a MUST for any chiropractor. Finally a way to computer upgrade your present technique to a Non-Linear System and Tonal Model. An "All Win" for pediatrics."

Liz Anderson-Peacock, WCA Chiropractor of the Year 1999, Canadian Chiropractor Magazine Chiropractor of the Year 1998, Instructor for the International Chiropractors Pediatric Association Diplomate Program

"TRT is such a fantastic technique to use, practice changing! It is wonderful when the patients get up off the table, turn to you with a smile in their eyes and say "thank you"... you know you've helped turn the power on."

Dave Russell, Author 8 TRT research papers

21st CENTURY TECHNIQUE
